Vectomega®

Omega-3 Fatty Acid Complex from Salmon

Healthy Brain, Heart & Eyes*

Our Passion is Your Health!

SUPPLEMENT FACTS	
Serving Size: 1 Tablet	
Servings Per Container: 60	
Amount Per 1 Tablet:	%DV
Omega-3 Phospholipid	292 mg **
Peptide Complex	
Featuring Phospholipids, Omega-3 [DHA (docosahexaenoic acid) and EPA (eicosapentaenoic acid)] and bioactive peptides extracted from Atlantic Salmon (<i>Salmo salar</i>), in a balanced ratio as found in salmon; not chemically altered or artificially spiked with DHA/EPA	
**Daily Value (DV) Not Established	

Other Ingredients: microcrystalline cellulose, tricalcium phosphate, gum arabic, hydroxypropyl methylcellulose, silica, citrus (*Citrus limon*) essential oil, titanium dioxide, stearic acid, iron oxide.

No sugar, salt, yeast, wheat, gluten, corn, soy, dairy products, artificial flavoring, or artificial preservatives.

Recommendations: 1 tablet daily, may increase to 1 tablet twice daily for additional support.

SUPPLEMENT FACTS	
Serving Size: 1 Capsule	
Servings Per Container: 60	
Amount Per 1 Capsule:	%DV
Omega-3 Phospholipid	214 mg **
Peptide Complex	
Featuring Phospholipids, Omega-3 [DHA (docosahexaenoic acid) and EPA (eicosapentaenoic acid)] and bioactive peptides extracted from Atlantic Salmon (<i>Salmo salar</i>), in a balanced ratio as found in salmon; not chemically altered or artificially spiked with DHA/EPA	
**Daily Value (DV) Not Established	

Other Ingredients: hydroxypropyl methylcellulose (vegetable cellulose capsule), gum arabic, magnesium stearate, titanium dioxide.

No sugar, salt, yeast, wheat, gluten, corn, soy, dairy products, artificial flavoring, or artificial preservatives.

Recommendations: 1 capsule daily, may increase to 1 capsule twice daily for additional support.

Terry Naturally brand products contain natural and other premium ingredients.

Vectomega is the ONLY phospholipid Omega-3 DHA/EPA with bioactive peptides for superior brain and heart health support.*

- Available in capsules or tablets – just one daily!
- Marine phospholipids for better absorption*
- Phospholipids—crucial for heart, brain, and eye health*
- Peptides—not found in fish oil or krill oil—vital for mood, immune, focus, and overall health*
- Bioidentical DHA/EPA in their unaltered form that your body loves best—unlike fish oil or krill oil*
- Patented French hexane-free extraction process
- Zero rancidity, unlike oil-based omega-3s
- Never chemically altered or artificially spiked
- No fish burps

Frequently Asked Questions for Vectomega®:

Q. How does Vectomega compare to fish oil?

A. Vectomega is not a fish oil product, and the numeric measurements between fish oil products does not apply to Vectomega. Vectomega is an extract of omega-3 fatty acids, phospholipids, and fish bioactive peptides from the head of the salmon. The DHA and EPA are in a 2:1 ratio, exactly as it occurs in the salmon – and in the human brain. Studies have illustrated that absorption and utilization of omega-3 fatty acids are *more* important than sheer numbers. The amount of DHA and EPA in Vectomega is about what you would get in a serving of fresh salmon. Additionally, the ability to deliver omega-3 fatty acids *without* causing oxidative stress and damage to the body is a remarkable advance in omega-3 science.

Q. What is the difference between triglycerides and phospholipids in an omega-3 product?

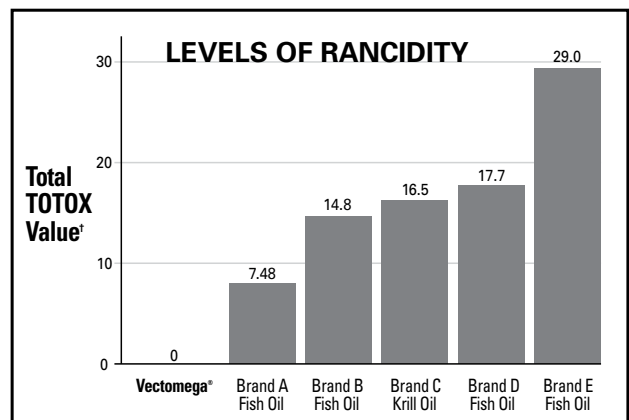

A. In all fish oil, the omega-3s are transported by triglycerides. Triglycerides are slow and inefficient carriers, and most people do not feel they need *more* triglycerides in their body. Vectomega's omega-3s are attached to phospholipids NOT triglycerides. Phospholipids have been shown in laboratory models and also in living systems to boost absorption. Additionally, phospholipids themselves have tremendous health benefits. Some of the phospholipids in Vectomega are phosphatidylcholine, phosphatidylinositol, and phosphatidylserine. The health benefits from Vectomega stem from phospholipid-bound absorption, the fish bioactive peptides, the bio-identical EPA and DHA, and from the phospholipids themselves. Another health benefit is the lack of rancidity (see next question).

Q. Why isn't rancidity an issue with Vectomega?

A. Both fish and krill oils are oil, meaning they are subject to oxidation, which results in rancidity. Vectomega **does not** have rancidity issues because it is not an oil. Also, because it is not rancid and has phospholipid absorption, people do not regurgitate and burp an unpleasant fish flavor/odor when they use this product, unlike the typical fish oil experience of burps and upset stomach.

Q. Vectomega is one tablet or capsule a day, but are there situations where you can take more than one?

A. For healthy individuals who seek additional omega-3 supplementation, one Vectomega per day is sufficient. For someone seeking higher levels of omega-3s, we recommend 1 tablet or capsule twice daily. A dose of fish oil can be up to 9 capsules per day, or spoonfuls of liquid oil, which can cause compliance issues.

† Independent laboratory analysis of leading fish and krill oil products, Aug. 2012

Low TOTOX Value = Fresher Product
High TOTOX Value = Rancidity

What to pair with Vectomega®:

- **CuraMed®** – Provides clinically studied curcumin with turmeric essential oil for a powerful antioxidant defense and healthy inflammation response.† **Up to 500 times more powerful than turmeric.**^ CuraMed curcumin has been shown in clinical studies to support cellular health.*
- **Healthy Cholesterol!†† with Amla** – Features a unique, concentrated extract of Amla (Indian Gooseberry) to help maintain healthy cholesterol levels already within normal range.*

† Occasional inflammation due to exercise or overuse

^ Based on enhanced absorption of CuraMed curcumin versus equivalent weight capsule of unstandardized turmeric containing 2% curcumin

†† Supports healthy levels already within normal range
