VEGAN NON-GMO Product of Iceland

Bladder health and comfort are important to everyone, men and women alike. **SagaPro Bladder Health** can help bring peace of mind to your days and nights.\*

SagaPro Bladder Health is ideal for men and women looking to support bladder strength and urinary tract function.\*

### MEN - Prostate and Bladder Health

Unlike Saw Palmetto, **SagaPro** is for more than just prostate health. It contains key compounds that support the smooth muscle tissue of the bladder, making it ideal for both men *and* women.\* **SagaPro Bladder Health** is now so popular that it outsells Saw Palmetto as the #1 bladder product in Iceland!\*

### WOMEN - Bladder Health

SagaPro is ideal for healthy bladder strength.\*

### **Better Rest.**

Participants in a recent clinical trial experienced support for healthy bladder function, and reported improved sleep patterns as well.\*\*

† In subgroups of participants with specific bladder and urination characteristics

**SagaPro Bladder Health** features a powerful, clinically studied extract from the *Angelica archangelica* leaf. This prized botanical in Iceland has been used traditionally for over 1,000 years.

The angelica leaves used in this formula are gathered by local people in an eco-friendly manner. Although abundant in the fresh landscape of Iceland, wild angelica is still recognized as a valuable resource. While this plant is wild harvested, the procurement process is monitored and sustainable.

### Frequently Asked Questions for SagaPro® Bladder Health:

### Q. How long until I notice benefits?

A. Each person varies, but you may start noticing benefits after the first few days. Consider doubling the dose at first, and then dropping to the suggested dosage when you begin noticing benefits.\*

### Q. How does SagaPro work compared to saw palmetto extracts?

A. Unlike saw palmetto extracts, which are intended to support healthy PSA levels and prostate function, and are recommended only for men, SagaPro supports bladder strength. Because it is a bladder supporting supplement, SagaPro also differs from saw palmetto extract in that it is recommended for men and women.\*

### Q. What steps are taken to prevent over harvesting?

**A.** While angelica is a highly-valued herb, it grows all over Iceland, and is by no means an endangered plant. In fact, its proliferation is even considered too intense in some areas. In certain places, harvesting can benefit local authorities that would otherwise have to eradicate the plant in a costly way.

Additionally, the manufacturer works with local people who know their region well. That type of knowledge helps in choosing the best spots, and since local experts can follow the development of angelica fields over many years, they provide information which ensures that the angelica fields aren't overused.

### Q. Is Angelica safe? I thought that it wasn't for everybody.

**A.** Yes, this Angelica (*Angelica archangelica*) grows in Iceland and has been safely used and enjoyed for centuries. It is not the same as Chinese angelica (*Angelica sinensis*), also known as dong quai.

The fruits, leaves, and roots of the plant have been used in folk medicine, and it was cultivated in the Nordic countries during the Middle Ages. Vikings even used this herb as a form of currency. In fact, banning the theft of angelica was actually written into some of the earliest law books in Iceland about 1,000 years ago! These days, angelica tea from the leaves and cereal from the seeds are popular foods in Iceland, and the leaves from this plant are used to make **SagaPro**.

### What to pair with SagaPro® Bladder Health:

• **CuraMed**® – Provides high absorption, clinically studied curcumin which has been shown to support healthy mood and brain function.\*
